VIRTUAL CISO SERVICES FOR IT

Strategic cybersecurity leadership for SMBs, councils, and not-for-profits

Cyber risk is growing. Your response shouldn't be ad hoc.

Our IT-focused vCISO services give you expert cybersecurity leadership without the cost of a full-time executive — helping you reduce risk, stay compliant, and confidently guide your organisation forward.

🔍 What Is a Virtual CISO (vCISO)?

A Virtual Chief Information Security Officer (vCISO) is an outsourced cybersecurity leader who provides expert guidance, strategy, and oversight — without the full-time salary.

We act as your trusted advisor, helping you:

- Build and maintain your cybersecurity roadmap
- Align with compliance frameworks (Essential Eight, ISO 27001, ISM)
- Respond to client, vendor, or regulatory security demands
- Communicate risk clearly to executives and boards

Whether you're a local council, a growing business, or a not-for-profit, our vCISO service is tailored to your size, maturity, and risk profile.

📦 Our Tiered vCISO Packages for IT Environments

We offer three fixed-price tiers depending on your needs:

Assess

$3,000 / month

Establish visibility and control.
Ideal for organisations beginning to formalise cybersecurity governance or align with recognised standards.

Includes:
- vCISO onboarding and program setup
- Monthly governance session
- Security policy and risk register review
- Baseline control and compliance gap assessment
- Advisory guidance on key improvement priorities

Outcome:
Awareness, structure, and foundational cyber governance.

Elevate (Most Popular)

$5,000 / month

Build maturity and assurance.
Designed for organisations that need sustained governance, measurable improvement, and leadership visibility.

Includes:
- Ongoing vCISO oversight and strategic guidance
- Monthly executive security report (KPIs, risks, actions)
- Quarterly assurance or supplier review
- Continuous risk and control monitoring
- Advisory support for compliance, audits, or frameworks (e.g. NIST, Essential Eight, ISO 27001)

Outcome:
Audit-ready confidence, measurable maturity, and improved security posture.

Assure

$8,000 / month

Optimise and maintain resilience.
For high-risk or regulated environments requiring continuous assurance, executive oversight, and defensible evidence.

Includes:
- Proactive governance and uplift roadmap
- Monthly + fortnightly vCISO sessions
- Full-spectrum risk and compliance management
- Continuous supplier and incident oversight
- Board-level reporting and audit coordination
- Threat, control, and maturity optimisation planning

Outcome:
Continuous assurance, strategic resilience, and verifiable compliance.

NOTE: 20% discount available for 12-month pre-payment

🎯 Outcomes You Can Expect

- ✔ Clarity on your current risk position
- ✔ A clear, achievable roadmap — not a 50-page PDF of technical jargon
- ✔ Leadership-ready security reports and metrics
- ✔ Support through audits, tenders, and vendor assessments
- ✔ Compliance alignment without the bureaucracy
- ✔ Trusted guidance when incidents (or near misses) happen

VIRTUAL CISO SERVICES FOR IT

Strategic cybersecurity leadership for SMBs, councils, and not-for-profits

💬 What Our Clients Say

"Before working with vCISO.One, we had no clear cybersecurity direction. Now we've got a tailored roadmap, board-level reporting, and a trusted advisor we can actually talk to."

- Operations Manager, Regional Council (QLD)

👥 Who Is This For?

- **SMBs** with client or regulatory cybersecurity obligations
- **Councils** managing internal systems and external services
- **Not-for-profits** handling sensitive personal or financial data
- **Any organisation** needing cyber leadership but not ready to hire full-time

---

❓ Why Not Just Use a Consultant or IT Provider?

Most IT consultants focus on technical solutions — not strategy, governance, or risk. Our vCISO service is designed to:

- Sit at the leadership table
- Speak business and security fluently
- Drive long-term cyber maturity

We work alongside your internal team or MSP to build capability, not just hand over a report.

✅ Why Choose vCISO.One?

- **Australian-based:** Local expertise, aligned with national frameworks (ISM, Essential Eight, SMB1001, ISO 27001, etc.).
- **Modular support:** Scale up or down as your needs change — no lock-in contracts.
- **Board-ready reporting:** We bridge the gap between technical risk and executive accountability.
- **Practical, not theoretical:** Real-world advice, not recycled compliance checklists.

🔄 How to Engage

Getting started is simple:

1. **Choose your tier** – Pick the service level that suits your organisation.
2. **Book an onboarding session** – We'll scope out your environment and confirm fit.
3. **Start improving** – Get practical advice, policy updates, and visibility over your risks.
